

ACLF-ODWAC-22 ANCHORING CLAMP

TECHNICAL SHEET

SR.NO.	DESCRIPTION	UNIT	DATA
1	Type of Clamp		Optical Dropwire Anchoring Clamp
2	Item No.:		ACLF-ODWAC-22
3	Picture		
4	Dimensions	mm	301-1 301-1 301-1
5	Cable size	mm	2*6
6	Weight	kgs	0.044
7	Break load	kn	1
8	Material		stainless steel 201
9	cable type		FOC
10	Routine Test		1) Dimensional Verification 2) Visual a) Marking (Printing & Embossing) b) Overall finish c) Packaging Quality 3) Tensile Test
11	Installation		1. Lay cable in shell. 2. Place shim on top of cable with raised embossings against cable. 3. Insert wedge in shell (on top of shim) and pull to engage. (Small end of wedge should be initially engaged in track of large end of shell). 4. Place bailwire on "B" drop hook (ram's horn) with wedge loose. Pull drop wire through clamp until proper sidewalk/alley clearance is achieved. 5. Grasp clamp (bailwire still on ram's horn) and pull tightly to secure.
